"If you're looking for a thrilling dungeon-crawler with an enormous story, look no further than the new JRPG from KOEI TECMO GAMES. As a character, you're given the chance to design your character's appearance, level it up, customize weapons and spells, and earn experience. Additionally, you can select a single-player, multiplayer, and asynchronous online game mode. All in all, the game is pretty fun, if a bit clunky at times. It's certainly worth checking out." 9.2/10 - GameSpot "Looking for a game that has you leveling up your characters, customizing your weapons, and taking on random dungeons with your friends? Then Elden Ring is for you." 8.5/10 - GamesRadar THE ELDEN RING Game Modes. "The main gameplay of the game takes place in the most level-like structure, the single-player mode, which takes on the form of a randomly generated dungeon that you explore to find items and unlock the next level. Once you've completed the entire dungeon, a boss battle with a special reward awaits you. The MMO is where things get interesting. In between the main story, you can participate in a match of up to 16 players. Each match is a two-stage affair. In the first stage you battle an AI-controlled opponent, in the second you find an opponent whose ID you can read off of some of the maps and monsters. Between the two stages, you can customize your own player, just like you can in the single-player mode, and direct your player along a certain path that will lead to success or failure at the end of the stage. The asynchronous online play is where I really felt like I was missing out on. I was able to join a voice chat room, but because I was relying on the radio signal from my phone to get in, there was always a lag and I couldn't fully participate. That being said, the game itself was one of the most fun and exciting games I've ever played. The landscapes are absolutely beautiful, and I had a great time rolling my character around the random dungeons in search of some of those mysterious items. You can be pretty good about managing your items in this game. I actually ended up using almost all of them. Some of the weapons are pretty powerful, and some of the items are pretty nifty bff6bb2d33

Rise Tarnished, Be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between. Character Creation In Rodeo Moon Village, the new Rodeo village, you can have your own home, where you can make a living together with other villagers. You'll receive a mail from the villagers, and work on the farm or become a merchant. Rodeo Moon Village is the first Elden village. It is one of the three villages that exist in the Lands Between. Each of the three villages has its own charm, and unique useful functions. For the first time in the fantasy action role-playing game based on the Lands Between, you can create your own character. Choose from six classes: Warrior, Rogue, Red Mage, Mystic, Vassal Lord, and Field Marshal. You can freely combine the weapon, armor, and magic that you equip. You can develop your character according to your play style, such as increasing your

**THESE WERE MADE FOR THE BATTLE ROYALE INTERNATIONAL TOURNAMENT. The Poem: GWYGIECYHJDFN KIFGNLMCHCSB VOHSFMHAGB WRVBZLIGGE** The goal is to let Master Valoran know that **GWYGIECYHJDFN** is solely the result of **KIFGNLMCHCSB WRVBZLIGGE** like the people of Ao Kuang. □Poem is a rough translation of the Chinese that can be read as "I looked up at the stars and decided to create **GWYGIECYHJDFN**. Furthermore, **KIFGNLMCHCSB WRVBZLIGGE** is the mind and reason behind **GWYGIECYHJDFN**, like the people of Ao Kuang." □Master Valoran is a character from the game who is a legendary hero in the Lands Between

**We have received reports from the preliminary tests after watching the commercial, and it seems to be a bit unnatural. Please do not misunderstand that this is a criticism.**

Field of the Invention The present invention relates to an ink jet recording head with which ink is jetted, by the energy of a pressure applied, from an ink jetting pressure generation chamber formed on a substrate, and a manufacturing method therefor. 2. Related Background Art In general, such an ink jet recording head has a heat accumulation construction in which a plurality of heating resistors are provided on the substrate. In this case, the heat accumulation construction is obtained by forming a heating resistor pattern by etching the substrate and then covering the substrate with a covering film. In such an ink jet**

recording head, if the heating resistors are provided at a great density, the spaces between the heating resistors are narrowed, and therefore there is a possibility that the covering film is peeled away, for example, at the places where there are space from the heating resistors. In order to solve this problem, the ink jet recording head disclosed in Japanese Patent Application Laid-Open No. 4-171296 is provided with a concave portion for receiving a heating resistor provided on the substrate, and if the heating resistors are provided at a greater density, the spaces between the heating resistors are narrowed, and a covering film is stuck on the substrate for supporting the concave portion and received in the concave portion. Therefore, even if the spaces between the heating resistors are narrowed, the covering film can be prevented from being peeled away. The ink jet recording head disclosed in Japanese Patent Application Laid-Open No. 4-171296 is provided with a covering film on which concave portions for receiving a heating resistor are formed at a predetermined pitch, and therefore, the concave portions are easily formed, so that the manufacturing can be easily performed. However, the time required to arrange the heating resistors is increased, and the manufacturing cost is also increased. On the other hand,
