Cora is a girl in a world without life. It's dark and choking. Your main goal is to find a way to activate the ancient device called the Seed of Life. The planet's life force is the only way to save your home, and your past has been altered. You've received a special bracelet that shows you the way. The sun is on its last light. The dying world is fading into chaos. Invaders appeared out of nowhere and took us by surprise. There was nothing we could do! They took our most precious treasure: the planet's life force, leaving us to certain death. Alien creatures were left on the land to absorb what's left alive. To save your home you need to find the source of life and activate the ancient machine. Let the light guide you! What makes this game stand out: a) A unique and emotion driven Sci-Fi fantasy set in a dead-end post-apocalyptic world: The dying sun, the sad and barren planet

and the end of all life. The player has to find a way to bring back the life force and defeat the enemy. You can get help from an artificial companion, a character that has been altered by the device.

b) Well thought out, challenging puzzles: The gameplay mechanics are fundamental to the experience. It involves solving puzzles, outmaneuvering the enemy, walking and climbing to reach places that are far away.

c) A unique kind of action: You play as Cora. Cora is an android, a humanoid machine that was altered by the Seed of Life to have a normal life, body and emotions. She's a native of the planet with a gift of seeing the full picture of a scenario, even if the details are not clear. Although the player can be decisive and take action, Cora is an avatar of the player's judgment.

d) A great story full of emotion: A sci-fi fantasy that respects the characters and subplots of the story. The world is full of mysteries, dangers and

beauty. Cora's story and the themes related to the game's dystopian world will captivate you.
