I want to use a foreach statement for each of the values in the column, so for the first cell the value for the column should be "A" and for the second cell the value for the column should be "B". I would not know how to use the foreach statement. A: Assuming you're using SQL server 2008, you can use SELECT t.id, t.column_1, t.column_2 FROM table t WHERE t.column_3 = "your value" to get the id, column_1 and column_2 values for the row in the table where column_3 has your value. If you were looking for a value in a specific column in a row you could use SELECT t.id, t.column_1, t.column_2 FROM table t WHERE t.column_3 = "your value" AND t.column_1 = "column_1 value" Michigan Department of Corrections The Michigan Department of Corrections is an agency of the government of the U.S. state of Michigan charged with overseeing and managing the custody and prosecution of those convicted of crimes in Michigan. The department has responsibility for oversight of four facilities that house Michigan prisoners, and 1,217 contractually employed correction officers who also serve as corrections officers at these facilities. The Department of Corrections also runs two youth facilities for people under the age of 18 convicted of a crime. The Governor of Michigan signs each prisoner's sentence into law, and Secretary of Corrections G. Michael Schuette signs each order of execution into law, by executing the prisoner. The Corrections Commissioner is a political appointee of the Governor. In addition to the Department of Corrections, there are four other state agencies that also hold responsibility for statewide corrections issues: Department of Human Services - responsible for oversight of Michigan's 11 state prisons; Department of Health & Human Services - responsible for oversight of Michigan's four women's prisons; Department of Corrections' Board of Review - responsible for rulemaking and reviewing the Department of Corrections annual budget plan; and Department of Corrections' Risk and Management Unit - responsible for oversight of security at all four Department of Corrections' facilities.
