smackdown here comes the painpc game is the part of wwe smackdown series, developed by yukes and published by thq. this is the wrestling series where player has to take the role of a wrestler. he can also control the positioning of the opponent and then he can attack him at any time and by taking any step. in this part of game they have focused on individuals powers and strengths. if a player wants to add more power into him he can run on treadmill, by doing this more points will be added in his strengthmeter. there are different weapons also available for the player which includes chair arm, tables, ladder etc. although the gameplay is very similar to other previous installments in the series, the latest installment is a huge departure from previous wwe video games. the game is now much more realistic, allowing for a more cinematic experience. here are a few things that have changed in this installment of wwe:

- customization: players can create their own character using a character creation editor with over 300 playable characters and a robust create-a-character system. characters can be customized with hundreds of move sets, enhanced outfits, and dozens of signature moves. superstar profiles include various attributes, statistics, and information about the superstar's career in wwe.
- systems: improved ai; game engine; match flow; and many gameplay systems are improved, with the in-game camera now automatically switching to the backstage camera when a match is finished. the game also features new camera modes, customization, and an improved soundtrack.
- matches: the game features a new wrestling engine that allows for unique gameplay options. wrestlers are positioned differently on the show floor, stages, and in arenas. every wrestler has a unique set of abilities, attacks, and finishing moves, with new finishing moves being unlocked as players progress through the game.
- playground: a new location is now available for purchase, the playground. this location features upgrades and new sets of challenges.
- wwe superstars: new superstar profiles and movesets are featured.
- wwe universe: players can now win contracts to appear on wwe television and make their way up the card, with many new and returning superstars from the wwe universe appearing.
- modern era (1987-2016): the majority of the game features the modern era, with the exception of the attitude era, the monday night war, and monday night raw, which are available as downloadable content.
- misc: speedos, divas, and championships are now available in the create-a-superstar system.
