System Requirements:

This is an experimental test of this hard fork. As a result, it requires users to have a software wallet that supports EOSIO r1. It's recommended to use the "eosiorepo" version of your software wallet, with an EOSIO version of 1.0.1 or higher. Please contact @ with any issues you encounter. You can also open a bug on the EOS testnet. *Please note that currently there are not enough validators, thus we cannot support a large number of nodes.
